

ONE
MILLION
LAMPS

Bespoke lighting

Creative Cables offers the opportunity to create bespoke, high quality lighting with an extensive range of feature lighting, individual lamps and components.

Focusing on customisable lighting solutions, Creative Cables offers a wide range of products that allow customers to tailor their designs to suit their unique style and needs.

We celebrate the uniqueness of each individual and believe that true brilliance shines when personal identity finds its voice. Our commitment to freedom of expression is reflected in our products, which enable customers to light spaces in a way that reflects their unique personality.

The Manifesto

We create lamps with you

Every lamp is unique, reflecting the taste and creativity of those who use it.

Light wherever you need it

Our design systems let you move light exactly where it's most needed.

Assembled or customized

Choose components to create or personalize your lamp, or simply switch it on if pre-assembled.

From digital to personal

We started online but now have stores worldwide to meet our clients in person.

Global but rooted

Our products are sold worldwide, but crafted with the expertise of Italian artisans.

Supporting light professionals

We offer exclusive services to architects, electricians, and designers.

Sustainable by design

Durability matters. Every part of the lamp can be replaced as needed.

Proudly Italian

Despite the English name, we celebrate our Italian origins.

Quality at a fair price

We offer beautiful, accessible design with endless creative possibilities.

Content over packaging

Simple packaging highlights our colorful, customizable products.

The Configurator

The Creative Cables configurator allows you to design lights in just a few simple steps.

Using an intuitive interface, you can choose from a wide range of components and design options to create a unique lamp that reflects your style.

Scan, customize, have fun!

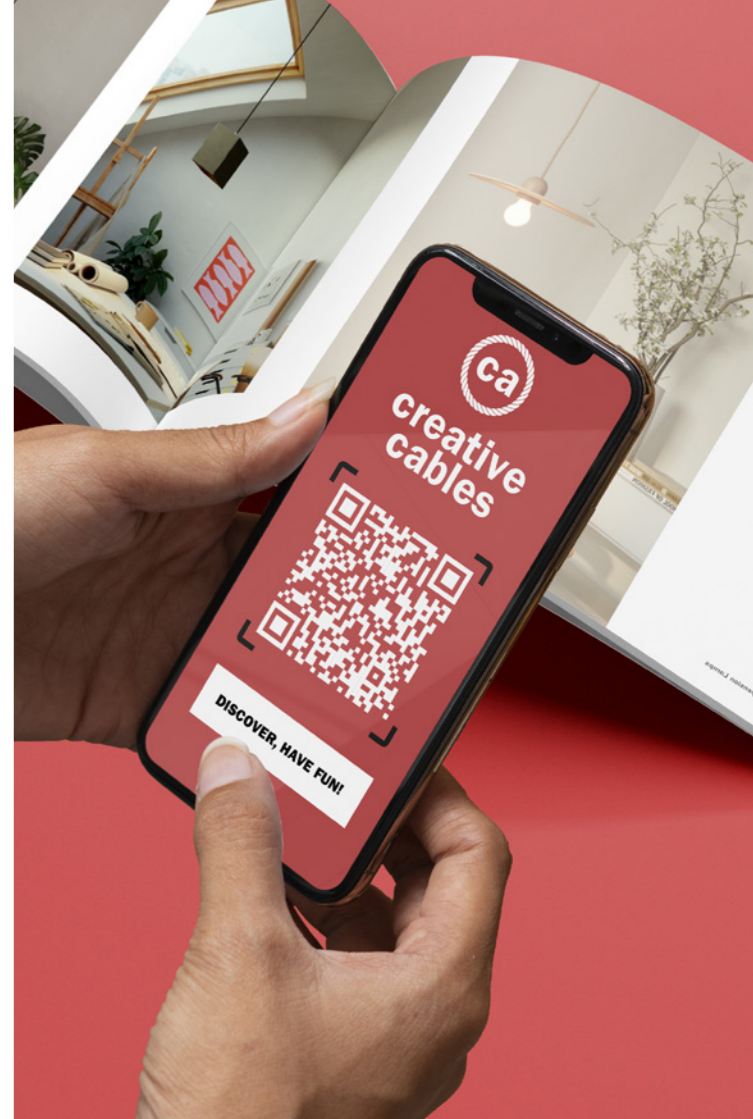

Throughout this catalog, you will find QR codes next to each lamp.

By scanning the QR code with your smartphone, you will be taken directly to the section of our configurator dedicated to the lamp you're viewing.

From there, you can customize the design, change details like the cable, lampshade, and finishes, and see a real-time preview of your creation.

The process is simple and immediate, allowing you to transform a standard lamp into a unique piece, tailored just for you.

Whenever you see the pencil logo (✎), it means that the lamp is not present in the configurator but we are happy to assist you in customizing it for you. Just contact our customer service team, available by phone or email. They will guide you step by step, using our components as your personal toolbox.

Pendant lamps

Pendant lamps offer endless possibilities for customization, becoming true design statements in any space. Whether it's a single light or a complex arrangement of multiple pendants, the choice is yours.

Play with long or short cables, depending on ceiling height and the effect you want to achieve. Experiment with bold, vibrant colors or neutral tones, and choose from industrial finishes or natural materials.

Every component can be selected and personalized, turning your lamp into a one-of-a-kind piece perfectly suited to your style and space.

Wall and surface lamps

Wall and surface lights provide a versatile and stylish solution for lighting any room.

Whether you're highlighting a specific area or illuminating a larger space, these lights offer flexibility and design potential.

Some models feature textile cables that allow you to reposition the light or extend it to a nearby socket, offering both function and flair.

Available in a range of shapes, finishes and materials, you can customise every detail to ensure the lamp blends seamlessly with your décor and lighting needs.

Battery lamps

Battery-powered lamps offer versatility and convenience.

Without the need for an electrical outlet, these lamps can be placed wherever you need them, from cosy corners to patio tables. Available in a variety of styles and designs, battery lights can enhance any décor while providing functional lighting. With dimmable brightness settings, you can create the perfect ambience for any occasion.

Our lamps are proudly made in Italy, reflecting exceptional craftsmanship and quality. Designed with sustainability in mind, they feature a right-to-repair system, thanks to interchangeable bulbs and batteries, ensuring long-lasting use. They are also customizable, allowing you to add your own logo for a personal or professional touch.

Lightweight and portable, these lamps are perfect for entertaining guests or adding a touch of light to your nights under the stars.

Embrace the freedom of battery-powered lighting to illuminate your space with ease and style.

Outdoor IP65 multiple
pendant lamp

Outdoor IP65

IP65 outdoor luminaires are designed for maximum protection against water, making them ideal for a variety of outdoor environments.

Thanks to a special insulating gel inside and a waterproof membrane on the bulb, our EIVA lamps withstand rain and storms in complete safety.

Available in a range of styles and colours, they offer both functionality and a contemporary look. Their robust construction not only enhances safety but also allows for creative outdoor lighting solutions, whether for gardens or patios.

Light up your outdoor spaces with confidence, knowing that these durable fixtures will maintain their performance and style all year round.

Create and configure outdoor lighting. A world first!
