Product short description:

Customize your Wooden Posaluce Table Lamps and turn them into the perfect lamp for your favorite bookworm? You need a MINI-UFO disc from the Reading Bullsh*t collection. You'll love the ironic statements printed on the discs which are based on the most common lies told by readers. All are illustrated in the unmistakable style of Lepalle.it.

You just have to insert the MINI-UFO over the central light socket of the Posaluce and then add your favorite LED light bulb. Then just grab a book and you're ready to go!

YOU'LL LOVE THIS ONE IF: You have a first edition of "Infinite Jest" that has been lying on your bedside table for the last 6 months.
