Product price:

\$16.80 tax included

Product short description:

The wire mesh pendant lampshade is shaped like a magnum-sized bottle and is available in multiple colors.

This pendant lampshade is designed to **complement a variety of styles**, with a slightly modern edge. It works beautifully in minimalist and industrial-inspired spaces but also fits seamlessly into rustic kitchens. This style of mesh lampshade is a common design element found throughout Italy.

The pendant shade attaches to your pendant light setup via a small 0.39-inch hole at the top. It sits directly on top of the light socket cover and can be installed by sliding the cable through the hole and securing it into the canopy.

Choose the color and finish that best suits your space. For an extra stylish touch, we recommend pairing it with one of our ST21 Edison-style bulbs to make it stand out.

Attention! Bulb and socket **NOT** included.

Product description:

Magnum mesh metal bottle pendant lamp shade - technical specifications:

Material: painted metal.

Connection: via a hole at the top of the shade with a diameter of 0.39 inches (.39"). Note you must slide one end of your light fixture cable through the hole. It will not work with plugin pendant lights or lights that are already installed unless you remove the socket or the attachment at the end of the wire and thread it through the hole.

Width: 4.33"

Height: 11.81"

Attention! Not suitable for light bulbs with a diameter over 3.5".

Product features:

Material: Metal

Fitting: E26
