**Product short description:**

The simple **metal lamp shade** has remained a must in interior design for more than fifty years. With its iconic and very simple shape, Swing is a flat concave lamp shade, ideal for use in **very bright indoor environments such as kitchens and public places**.

Select the finish that best suits your needs in terms of interior design: the color of the white enamel inside the lamp shade will allow you to increase or decrease the brightness of your lamp, while the exterior finish will give an industrial touch to the surrounding environment.

The Swing lamp shade is ideal for making pendant lamps that give great brightness to a table or a kitchen.

With its shape, The swing lamp shade leaves your bulb completely visible allowing you to create unique combinations with the components of the Creative-Cables catalogue!

***Attention! Bulb and socket NOT included.***
