Leather covered wooden UL E26 socket kit

Product attributes:

Finish: Leather, Black, Burgundy
Cable clamp: Conical, Cylindrical

Product image:

Product price:

\$34.60 tax included

Product short description:

The leather covering the wood used to make the socket is handcrafted and sewn in Italy. Characterised by the contrasting finishes of the two materials it delivers a unique style for any setting.

Each of our leather upholstered components is characterized by small differences in colouring due to the manual production process to which they are subjected, making each piece unique.

The wooden socket kit is made in Italy and for those with:

- a preference for a contemporary yet glamorous look
- an appreciation of handcrafted Italian-made products

To configure and complement your leather covered E26 socket kit, please:

- use the menu options to make your selection
- watch the tutorial to learn how to mount the socket
- complete your lighting installation with Creative-Cables components, accessories, light bulbs and fabric covered cables

Creative tip:

- choose a Vertigo cable for your socket.

UL Listed: E190302
