Product short description:

Tub-E12 is the perfect lamp shade solution for every spotlight lover out there.

This metal pipe was created to host a black E12 double ferrule socket enabling you to **direct light** from any E12 light bulb directly on the spot you need within the room you are furnishing.

By connecting Tub-E12 to a curved or straight metal extension you get an elegant and original wall lamp, while fixing it to one of our round or twisted 2x0.2.95 inches cables you can create a unique single or multiple pendant suspension.

Tub-E12 is a **very versatile lighting solution**, allowing you to create the perfect atmosphere for your interior design needs.

Complete it with a LED light bulb with E12 socket small size and flared shape (R50 or PAR16) available in our catalog!

Have fun setting your imagination in motion by creating your own spotlight!

Warning: bulb NOT included.

Product description:

The Lampshade spotlight kit is comprised of metal pipe and E12 double ferrule phenolic bakelite socket with cable retainer. Ideal for creating a pendant by combining it with your preferred (not included) fabric cable and a ceiling rose.
