Product title:

Pinocchio XL, adjustable wooden wall support for wall lamps

Product attributes:

Product image:

Product price:

\$50.80 tax included

Product short description:

Pinocchio is not a simple wall bracket: it is Creative-Cables' solution to hang any lamp, which not only allows you to adjust the distance of the light source from the wall, but also to regulate the rotation of the extendable arm.

Pinocchio XL is made in Italy in zero-km beech carved in Turin, that can be impregnated or painted with the colour you want. And if you wish to add a lampshade, you can complete your installation with the wall brackets included in the kit. Thanks to the groove in the last rod, the cable remains locked in a safe position.

Pinocchio XL is the ideal wall fixture to create perfect wall lamps to illuminate the reading corner of a living room and any other room by always giving an original and unique touch, not only because of its shape, but also for the length adjustment function that allows you to adapt the light to any situation.

Product description:
