**Product short description:**

A perfect pendant lamp for those who want a **chic lighting solution with a contemporary design**? Here it is!

If you need a ceiling lamp that with just a few elements can change the look of a room, this lamp with metal details and an exposed bulb can be just right for you.

The metal finishes will allow you to re-create an **elegant and sophisticated design** in your interiors, while thanks to the exposed light bulb you can improve the brightness even in interiors where natural light is scarce.

We recommend you use this suspension lamp **to light a modern and glamorous living room, dining table or bedroom.**

This chandelier is ready to be installed and you can buy it already **complete with bulb**: we have chosen for you the Delo LED bulb with porcelain glass, which with its particular shape and matte finish makes it ideal to spread the light evenly in your environment, but alternatively you can take a look at our assortment of designer LED bulbs to find the one that best suits your style.

**Product description:**

Hanging lamp composed of:

120 cm of 2x0.75 textile cable of the selected color

1 metal canopy of the selected finish

1 E26 smooth socket

1 cylindrical E26 metal socket cup of the selected finish

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

NOTE: If a wall switch is connected directly after the line cable, turning off the lamp will also cut off power to the Matter switch. Consequently, it will no longer be able to receive commands via voice or app. However, once the light is turned back on from the wall switch, the Matter switch will be powered again and resume normal operation.
