Product short description:

A pendant lamp designed for those looking for a **minimal and elegant lighting solution**. This ceiling lamp with metal finishes and exposed light bulb is perfect if you want to give a new look to your interior using neutral tones and monochromatic combinations.

The metal finishes and textile cables that we have selected will allow you to create a modern and contemporary design in your rooms, while thanks to the naked light bulb on display you can also **light interiors where natural light is more scarce**.

We recommend using this suspension lamp to **change the look of a living room**, give new light to a modern style dining table or bedroom.

This chandelier is ready to be installed by expert hands and can be purchased already **complete with bulb**: we have chosen for you the transparent Globo G95 LED bulb with long filament, but alternatively you can take a look at our assortment of designer LED bulbs to find the one that best suits your style.

PLEASE NOTE: Some of the images shown are examples of multiple pendant configurations that can be created by purchasing multiple suspensions. The item for sale is a lighting installation with only ONE pendant.

Product description:

Hanging lamp composed of:

- 100 cm of 2x0.75 textile cable of the selected color
- 1 metal canopy of the selected finish
- 1 E26 smooth socket
- 1 cylindrical E26 metal socket cup of the selected finish

Light bulb [DG-G95-CLEAR]: LED, G95, 5,5W, 250 Lm, 2200K, E26, width 95 mm, dimmable

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

NOTE: If a wall switch is connected directly after the line cable, turning off the lamp will also cut off power to the Matter switch. Consequently, it will no longer be able to receive commands via voice or app. However, once the light is turned back on from the wall switch, the Matter switch will

be powered again and resume normal operation.
