\$125.30 tax included

**Product short description:**

A suspension lamp with cage lampshade perfect for lovers of industrial style.

The small size of the Ghostbell lampshade, our black metal cage lampshade that lets you glimpse the lamp-holder cup in its various metal finishes, make this ceiling lamp the ideal solution for decorating and lighting modern environments inspired by industrial style.

We advise you to use it in series to **light your kitchen counter or a very long hallway**, or to give a contemporary touch to an entrance or living room.

This chandelier is ready to be installed by expert hands and can be purchased **complete with bulb**: we have chosen for you the Edison ST64 transparent LED bulb with long filament that will give a vintage touch to your new lamp, but alternatively you can take a look at our assortment of design LED bulbs to find the one that best suits your style.

**PLEASE NOTE:** Some of the images shown are examples of multiple pendant configurations that can be created by purchasing multiple suspensions. The item for sale is a lighting installation with only ONE pendant.

**Product description:**

Hanging lamp composed of:

120 cm of cable 2x0.75 of the selected color

1 metal canopy of the selected finish

1 E26 smooth socket

1 cylindrical E26 metal socket cup of the selected finish

1 Ghostbell naked lampshade cage in black metal ø 125 mm H 170 mm

Light bulb [DG-ST64-CLEAR]: LED, ST64, 5,5W, 250 Lm, 2200K, E26, width 64 mm, dimmable

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

**NOTE:** If a wall switch is connected directly after the line cable, turning off the lamp will also cut off power to the Matter switch. Consequently, it will no longer be able to receive commands via voice or app. However, once the light is turned back on from the wall switch, the Matter switch will be powered again and resume normal operation.
