Product short description:

The Rolé wooden cable clip, crafted in Italy, is an ideal wall fixture for creating Scandinavian-inspired wall installations.

The wenge-effect ash finishing boasts a dark colouring, with purple and black colours, to great aesthetic effect, while the brighter natural wood finishing can be painted or varnished to suit the needs of your creative projects.

Thanks to the use of several cable loops in sequence and stretching the electric cable from one support to another, you can design creative wall installations on your walls: the only limit is your imagination!

The kit includes accessories for wall mounting.
