Product short description:

Made to impress, the grass green shade is unbeatable when it comes to cool and bold colours. Whether matched with neutral tones like black and white or with secondary colours like orange or purple, it will always be on point. This is why we decided to line one of our Creative Flex textile flexible extensions in grass green fabric.

You'll be able to pair this extension with any Creative-Cables rose or lamp holder, and reshape it as many times as you wish by simply using your hands. Create a lamp that will adjust to your needs at any given moment, whether it be to snuggle in bed and read a good book or to bring attention to your new photos or paintings.

Thanks to the 3 different sizes that it comes in (30 cm, 60 cm and 90 cm), Creative Flex can be used as an artful addition to your table lamps, wall or suspension lamps and it can be used singularly or combined with other products thanks to the roses with multiple holes. For 100% custom-designed creations.

Product description:
