Product price:

\$75.20 tax included

Product short description:

If you need to evolve any light source into a lamp, this Fermaluce is perfect for you. No need to tear down walls or pick apart pre-existing electrical systems thanks to the rose with built-in switch. All you'll have to do is install it in a pre-existing light source and control it with a simple on/off.

Thanks to the adjustable 30cm long Flex extension and thanks to the GU10 spotlight, this lamp is extremely functional: you will be able to shape it however and as many times as you want, pointing the light beam where it's needed. A perfect answer to many scenarios, for example reading a book in bed when your partner is already asleep next to you.

This lamp is available in 4 pastel colours: mustard, petrol, baby blue and grass green. Delicate and radiant tones, easy to match both with warm shades like brown or wood or with colder, more neutral tones like grey or white. To bring any room to life.

Product description:

The lamp is composed by:

Mini rose: Ø 83 mm, height 25 mm, hole diameter 10 mm, material: metal, ceiling locking bracket single pole switch 0/I black
