Product short description:

Bring light exactly where you need it with our Snake lamp: safe and easy to use, without having to compromise on style. This portable silicone lamp comes with a built-in switch strategically installed in the lamp holder and a plug. The Creative-Cables solution for those looking for a fun and colourful plug-in lamp (or simple and timeless too). Choose from the 12 available colours, with or without light bulb, and light up every corner of your home with a simple power socket.

Why is this silicone lamp with plug the perfect choice for every room?

This plug-in lamp is simple and adaptable thanks to the built-in switch installed in the lamp holder and to the variety of available colours and finishes. A reliable lamp for your office, bedroom or corridor. And thanks to our wall supports like [Rolé](#), you'll be able to create a unique wall lighting solution for your indoor spaces.

Advantages of using silicone

Silicone is long-lasting, soft material and pleasant to the touch. It can withstand high temperatures, chemical aggressions and oxidation. On top of that, it's light and has isolating properties: these features make this material extremely versatile and reliable for interior designers and customers alike.

What kind of light bulb is compatible with this lamp?

The Snake silicone lamp with plug can be purchased with the included G95 clear light bulb, which adapts to any room thanks to its timeless spherical shape. Alternatively, check out our range of [designer LED light bulbs with E26 fitting](#) and find the one that best suits your taste.

Product description:

The Snake lamp is composed of:

- 5 metres of fabric cable 2x0,75 in selected finish
- silicone lamp holder kit E26 for exposed light bulb in selected finish
- two-pole plug 2,5A
