**Product short description:**

Fermaluce EIVA ELEGANT with adjustable joint is the wall lamp featuring the EIVA line socket and ceiling canopy: high-quality components tested for wet locations. These components are exclusively designed and patented by Creative Cables.

This lamp is perfect not only for decorating a garden or a terrace, but also as lighting solution for the bathroom, without having to worry about water splashes!

The lamp is equipped with an adjustable joint that allows it to tilt up to 90° and rotate by 315°, making it possible to direct the light according to your needs. Once mounted on or next to the mirrors, it will be the perfect functional lighting for applying make-up or for shaving!

The soft touch silicone cover is available in a range of EIVA ELEGANT colours: choose the one that best matches the interior you want to illuminate!

The Fermaluce EIVA ELEGANT lamp can also be purchased in the version already complete with bulb: we have chosen for you the clear Globo G40 decorative Led bulb, but alternatively you can check out the design bulbs available in our catalogue to find the one that best suits your tastes.

**WARNING:** The wet location EIVA socket is only compatible with glass LED light bulbs and has been tested for compatibility with A19, ST21, G30, and G40 bulb shapes.

*Every Creative Cables lamp is designed and assembled in Italy, tested by independent laboratories, ensuring compliance with the strictest regulations. Another reason to trust Creative Cables quality.*
