Product short description:

A vibrant pendant lamp ideal for those seeking to illuminate their balcony or refresh their garden lighting.

With EIVA suspension lamps, you can transform your outdoor spaces with confidence, thanks to their complete water resistance.

This individual pendant lamp features the socket and ceiling canopy from the EIVA line: top-quality components tested for wet locations. These components are exclusively designed and patented by Creative Cables.

The colorful soft-touch silicone finishes and coordinating cable enable you to add a splash of color to your outdoor areas, illuminating pergolas, gazebos, and expansive outdoor tables. Choose the version that complements your style best! The ceiling canopy can be mounted on either the wall or ceiling, making use of your system's existing connections. Additionally, with the decentralizer, you have the flexibility to suspend the lamp where needed for precise illumination.

This chandelier comes ready for installation and can be purchased complete with a bulb. We've selected different G40 LED bulbs. Alternatively, you can customize your lamp with one of LED bulbs from our collection.

WARNING: The wet location EIVA socket is only compatible with glass LED light bulbs and has been tested for compatibility with A19, ST21, G30, and G40 bulb shapes.

Every Creative Cables lamp is designed and assembled in Italy, tested by independent laboratories, ensuring compliance with the strictest regulations. Another reason to trust Creative Cables quality.
