Product short description:

Are you looking for a solution to illuminate your terrace dining table? Do you need an outdoor lamp for your porch? Would you like to add lighting to your garden that reflects your style? With EIVA pendant lamps, you can enhance your outdoor spaces confidently, thanks to a product that is completely water resistant.

This individual pendant lamp features the socket and ceiling canopy from the EIVA line: top-quality components tested for wet locations. These components are exclusively designed and patented by Creative Cables.

Complementing the lamp is the Harbour lampshade in enamelled metal, adding a timeless style.

Create an elegant and contemporary atmosphere in your outdoor spaces, illuminating pergolas, gazebos, and expansive outdoor tables. The ceiling canopy can be mounted on either the wall or ceiling, utilizing your system's existing connections. Additionally, with the decentrator, you have the flexibility to suspend the lamp precisely where needed for optimal illumination.

This chandelier comes ready for installation and can be purchased complete with a bulb. We've selected a G30 LED bulb. Alternatively, you can customize your lamp with one of LED bulbs from our collection.

WARNING: The wet location EIVA socket is only compatible with glass LED light bulbs and has been tested for compatibility with A19, ST21, G30, and G40 bulb shapes.

Every Creative Cables lamp is designed and assembled in Italy, tested by independent laboratories, ensuring compliance with the strictest regulations. Another reason to trust Creative Cables quality.
