**Product short description:**

A sleek pendant lamp ideal for those seeking a solution to illuminate their balcony or refresh their garden lighting.

With EIVA suspension lamps, you can transform your outdoor spaces confidently, thanks to a product that is completely water resistant.

This individual pendant lamp features the socket and ceiling canopy from the EIVA line: top-quality components tested for wet locations. These components are exclusively designed and patented by Creative Cables.

The soft-touch silicone finishes and coordinating cable are perfect for creating an elegant design in your outdoor spaces, illuminating pergolas, gazebos, and large outdoor tables: choose the version that best suits your style and add your lampshade! The ceiling canopy can be mounted on either the wall or ceiling, making use of your system's existing connections. Additionally, with the decentralizer, you have the flexibility to suspend the lamp precisely where needed for optimal illumination.

This chandelier comes ready for installation and can be purchased complete with a bulb. We've selected a G40 LED bulb. Alternatively, you can customize your lamp with one of LED bulbs from our collection.

**WARNING:** The wet location EIVA socket is only compatible with glass LED light bulbs and has been tested for compatibility with A19, ST21, G30, and G40 bulb shapes.

*Every Creative Cables lamp is designed and assembled in Italy, tested by independent laboratories, ensuring compliance with the strictest regulations. Another reason to trust Creative Cables quality.*
