**Product short description:**

Finding a lamp that matches your surroundings, has three different light outlets, and meets your needs can seem like an unattainable task. Well, consider us Ethan Hunt (yes, the main character in "Mission Impossible"). We've created E-Snake with needs like yours in mind: a three-fall lamp with exposed light bulbs, available in different finishes.

A perfect solution if you wish to illuminate your outdoor spaces with a single light source. For example, a table, sunbed, or terrace.

This lamp was conceived with sockets, joints, and canopies from the EIVA outdoor illumination system, designed by Creative Cables: components suitable for wet locations, perfect for outdoor use.

**WARNING:** The wet location EIVA socket is only compatible with glass LED light bulbs and has been tested for compatibility with A19, ST21, G30, and G40 bulb shapes.

*Every Creative Cables lamp is designed and assembled in Italy, tested by independent laboratories, ensuring compliance with the strictest regulations. Another reason to trust Creative Cables quality.*

Looking for different colors and sizes? Click the "customize" button.

**Product description:**

Total measurements:

- Length: 100,4"
