Product short description:

Add character to your outdoor spaces with the three-light pendant lamp, a perfect blend of design and weather resistance. Suitable for wet locations, it illuminates gardens, verandas, and porches without fear of rain or humidity. The three Unbreak-a-Ball shades, made from unbreakable material, not only create a dynamic lighting effect but also protect the bulbs from accidental impacts. Even in strong winds or sudden movements, they remain securely in place, ensuring flawless illumination.

The shade features decorative openings that make it easy to open and close for quick bulb replacement while preventing condensation buildup, keeping the light clear and bright—perfect for outdoor use.

The flexibility of this lamp, equipped with the EIVA socket and canopy, suitable for wet locations, designed and patented by Creative Cables, allows you to shape the cables and customize the light arrangement to fit your space and style. Available in various colors to blend seamlessly with any setting, it is the perfect choice for those seeking striking, practical, and personality-filled outdoor lighting.

Product description:

Outdoor lamp comprising:

2x1.00 neoprene cable suitable for wet locations - UV resistant; height: 102,4", height: 38,6"

1 soft touch silicone ceiling canopy suitable for wet locations

3 EIVA E26 socket suitable for wet locations

3 cap soft touch silicone socket of the selected finish
